Reviews

This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It's been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which basically modified me, altered the way I believe.

Brand New Book ***** Print on Demand *****.The home and the classroom have been traditionally key in the identity development and academic progress of African-American youth. Despite this history, the dropout rates of African-American males in secondary grades are increasing, while academic achievement scores of African-American males in the primary grades are not. The racial and gender composition of elementary school teachers does not mirror that of the students. This may contribute to the disproportionate achievement scores between African-American and Caucasian American students. In this book, Dr. B. L Daniels will explore some possible causes and solutions to this epidemic by highlighting the third largest school district in North Carolina. This book is a partnership of narrative and statistical fact, in hopes of stimulating a move to action of preventing another generation from being labeled Endangered Species.
