Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

The Course of Study in Library Economics for the Chicago High Schools. IV Some of the Opportunities for Library Work in Chicago. V. Summary of Conditions in the Chicago High Schools I. The Use Of The High-school Library ITT HAS been said that more attention should be given to U teaching the use of the library in our high schools. This we heartily endorse. But it cannot be done until our libraries are thoroughly organized and in charge of persons of experience and skill in the use of books and in directing young people. These librarians and their assistants should devote their whole time to the work. We hope to see the time when every pupil in each of the semesters of the course, shall receive from two to four lessons in the use of the library. Even then the money invested will not yield sufficient interest unless the libraries are open after the close of school and in the evening, for the use of the neighborhood as well as for those who attend the night schools. In considering the matter from the financial point of view with an eye to economy, the question fairly arises, Can the work with the pupils now attempted by the high-school library be done as well by the Branch of the Public Library Aside from the statement made...
