There are two global catastrophes that ancient cultures were capable of predicting far in advance: massive solar storms and the return of a comet aimed for Earth. Either of these events could be devastating to society, killing millions and changing the way we live forever. The ancient Mayan Long Count calendar ends on Dec 21, 2012. And they believed on this date the Gods would wipe out human beings. Regardless of the Mayan prophecy, being prepared is a sane and practical response to knowing that global disasters will continue to occur - including tsunamis, volcanic eruptions, war, famine, earthquakes and flu pandemics. Are you ready Section 1 - Possible Threats Section 2 - You and Your Safe Spot Section 3 - Global Safety Zones Section 4 - Survival Tips and Tricks I found Survive 2012 to be an informative, well-written and engrossing read, with numerous tips and ideas for survival world-wide. Even better is the fact that it is basically a manual to prepare yourself physically and mentally for any disaster, not just the end of the world. Many thanks for this life-saving information. - Steve B Lots of common sense advice, and help with surviving on a budget. There are no excuses not to prepare!
